Technical product description

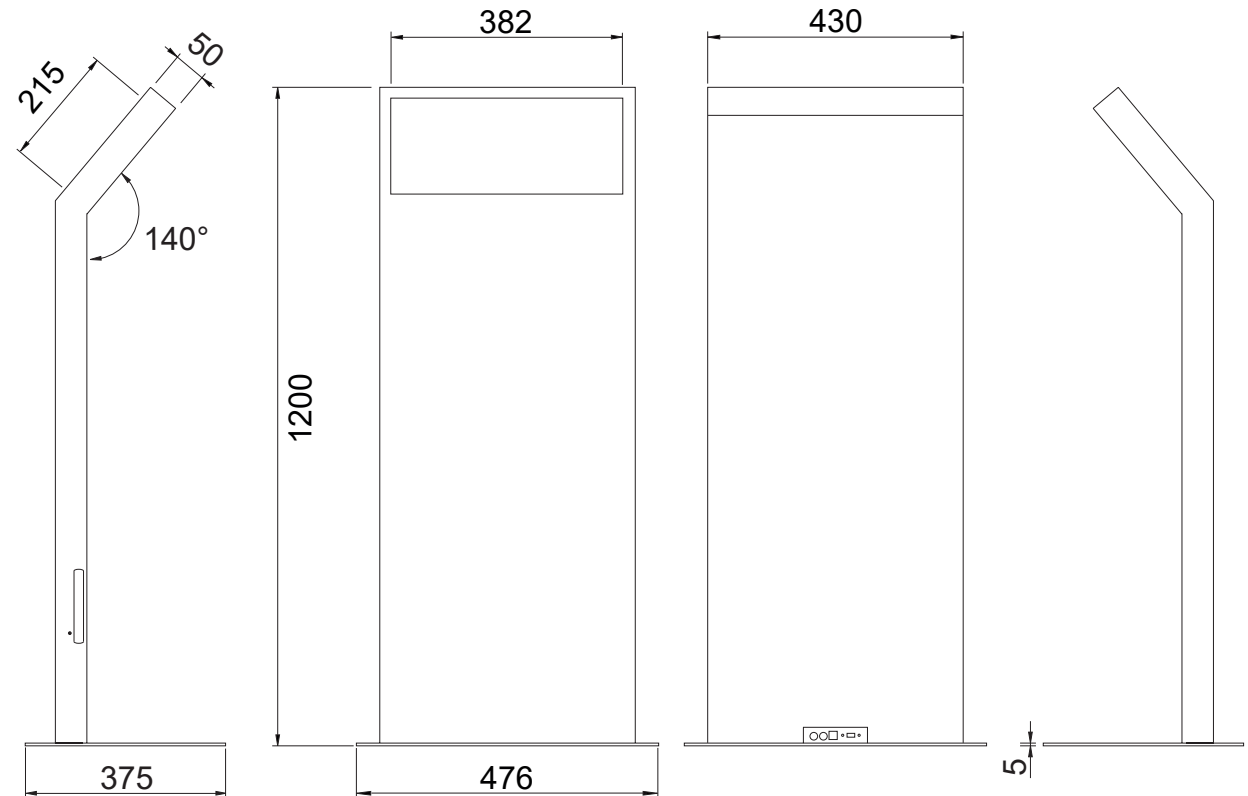

1.2m high kiosk with a classic design ideal for all types of facilities where interactive points are required.

17.3" TFT screen in a landscape position and with a native resolution of Full HD (1.920 x 1.080).

It incorporates a "PCAP" projected capacitive touch screen.

Integrated PC with the possibility of custom configuration. The standard PC incorporates an Intel QuadCore J3455 CPU with 4GB RAM and 120GB SSD.

The structure is made of steel painted in a RAL color to be chosen by the customer for a better adaptation to the installation or the environment.

Standard illustrated model
